transcription regulator complex
protein-containing complex
cytoplasm
nuclear protein-containing complex
RNA polymerase II transcription regulator complex
cytosol
Golgi apparatus
Reportero sobreestima
npBAF complex
regulation of nucleotide-excision repair
chromatin organization
chromatin remodeling
nBAF complex
SWI/SNF complex
regulation of G0 to G1 transition
nucleotide-excision repair
G0 to G1 transition
catalytic complex
sister chromatid segregation
positive regulation of DNA repair
Reportero subestima
